La casa

The image shows a drawing of a house on a grid. The house has a rectangular body, a trapezoidal roof, and a small square chimney on the right side of the roof. The front of the house features a window divided into four smaller squares and a single rectangular door to its right. Below the house, there is a set of dots on a grid, intended for a dot-marker activity. The dots are arranged in four rows: the top row has three dots, the second row has four dots, the third row has five dots, and the bottom row has four dots.
